

18th September 2024

Dear Parent/Guardians

I would like to take this opportunity to introduce myself as the form tutor for your child's tutor group, C67.

I am becoming a member of the Sixth Form team this year, a role I am looking forward to as I am able to assist students in achieving their future goals. Previously for seven years, I have been working in the school supporting the students from years 7-13 as a Maths teacher.

In addition to being a form tutor, I am also Y12 Maths Coordinator. and Maths across the Curriculum Coordinator. In this role, I support students with their A level Maths and also above and beyond activities including UKMT and other Maths Challenges to enhance their grades. I am very much looking forward to working with the tutor group throughout the coming year, supporting them both academically and pastorally as they navigate their final years of secondary education.

Please do not hesitate to contact me via the school office if you have any queries or wish to discuss any issues throughout the Key Stage 5 years. I look forward to working with you.

Yours sincerely

Ms. Jani
Y12 Maths Coordinator
Maths across the Curriculum Coordinator
