

18th September 2024

Dear Parents/Guardians

I would like to take this opportunity to introduce myself as the form tutor for your child's tutor group, C68.

I have been a member of the Sixth Form team for nearly four years and it is a role that I have greatly enjoyed as I am able to get to know the students more deeply as people and assist students in achieving their future goals. In addition to this I am the Director of Science and a Science/Biology teacher.

I will be going on maternity leave shortly before Christmas but will be working closely with Ms Forde (sixth form learning mentor) this term so she can take over the tutor group fully in my absence. In her role, Ms Forde supports students with their independent study, revision skills and post-18 pathways. Both myself and Ms Forde are very much looking forward to working with the tutor group throughout the coming year, supporting them both academically and pastorally as they navigate their final years of secondary education.

Please do not hesitate to contact either myself or Ms Forde via the school office if you have any queries or wish to discuss any issues throughout the Key Stage 5 years. I look forward to working with you.

Yours sincerely

Miss L Hide
Director of Science
Sixth Form Tutor (C68)
