

Activity

Look at the illustration in the following slides, using what you have learned so far and anything you can find out explain what the comic means

Example questions:

Does the title mean anything?

Can you find out anything about the people mentioned?

Are there any words you need to find the meaning of?

Does the comment reveal anything?

Is there an opinion you can agree/disagree with?

Are there any other jokes/references in the comic?

A good piece of work will identify several features of the comic, such as jokes, references, scientists or new scientific words.

Write a few sentences about each one you identify.

Include a list of references you used in your research: (books, dictionaries, encyclopedias, websites) at the bottom of your work.

CHECK IT OUT—A
